A. COMMITTEE RECOMMENDATIONS

- That this committee's recommendations and the Community Services Project report be circulated to all agencies that have contributed to the discussions to date, for comment at a public meeting, prior to a reply being made by Scarborough Council to the Metro Social Planning Council.
- That this social services review process be continued for at least two years.
- That Council appoint a Steering Committee to plan a workshop early in 1980.
- That the aim of the workshop be to make recommendations to Council on ways of setting up the structure to continue the process.

B. REPORT RECOMMENDATIONS

1.0 Women and the Family

- 1.1 Community by-laws should be amended to permit the location of day care centres in church facilities by non-church groups.

1.2 Board of Education, Manpower and community agencies generally should in co-operation seek to expand programs providing basic training in lifeskills, literacy and motivational preparation for the job market - particularly for low income single parents.

- 1.3 Emergency accommodation should be provided as soon as possible for
- mothers with children
 - abused wives
 - adolescent boys
 - adolescent girls (beyond the present capacity of Bethel House)

2.0 ELDERLY

- 2.1 Transportation for the elderly as an alternative and supplement to public transit is required beyond what is now available. Methods used in other municipalities should be considered for introduction in the borough. Ideally a Scarborough-wide transportation service for the elderly and handicapped should be developed.

- 2.2 More homemaking services should be provided for the elderly in private housing.
- 2.3 The Library Board should be requested to recruit volunteers to expand its shut-in service.

3.0 YOUTH

- 3.1 Industry, agencies and all levels of government should be encouraged to adopt employment counselling programs with follow-up capacity concentrating on the age group 14 - 19.
- 3.2 The Board of Education should be encouraged to use every possible means to achieve a reduction in the drop-out rate in its schools.
- 3.3 Youth are an important resource to be used in support of community services, particularly to the elderly. More advantage must be taken of provincial funding for summer youth employment, and more opportunities created for voluntary work.

3.4 Youth programs provided by clubs and voluntary organizations should continue to be supported and expanded where possible, as necessary supplements to Recreation and Parks Department facilitated programs. More youth employment counselling, teen drop-in centres and club programs are required in northwest Scarborough, and in Cliffside and Cliffcrest.

3.5 More Scarborough recreation staff must be made available for community outreach programs.

3.6 Strongly recommend that the Recreation Division be decentralized in order more effectively to respond to community needs.

4.0 IMMIGRANTS

- 4.1 That the Borough create a multicultural committee to assist in:
 - formation of local associations of the Scarborough immigrant community, and
 - hold conferences and workshops to promote mutual understanding.

APPENDIX III: NORTH YORK SPECIAL COMMITTEE RECOMMENDATIONSA. PROPOSED SOCIAL GOALS STATEMENT FOR THE CITY OF NORTH YORK1. HUMAN SERVICES

In recognition that human services - education, health, protection services, social services, recreation programs - are the social investments that a community makes in itself to promote states of individual and social well-being, and thereby enhance the quality of municipal life for all, the City of North York shall:

(a) Facilitate the provision of efficient/effective, accessible forms of human services including preventive responses to current and changing social conditions.

(b) Promote the development of voluntary agencies and community associations as full partners in the provision of human services and encourage citizen initiative and volunteer participation.

(c) Facilitate the development of appropriate human services in response to community recognized needs.

(d) Develop and contribute to on-going capabilities to monitor and review the provision of human services. This should include the capacity for North York residents and public officials to identify annual levels and patterns of public spending on human services for the municipality.

2. NEIGHBOURHOODS AND COMMUNITIES

The City of North York shall promote citizen involvement and the development of resources to ensure that neighbourhoods and communities in North York are living environments which enhance the state of well-being and the quality of life.

3. INFORMATION

The City of North York shall ensure that residents have access to information pertaining to City and community services.

4. COMMUNITY FACILITIES

The City of North York shall ensure that community facilities which are appropriately located, designed and accessible, serve as community and

neighbourhood social contact points co-ordinating delivery of human services.

(A community facility shall be defined as a facility for public use financed wholly or in part by public funds, e.g. parks and open space, recreation buildings, schools, libraries and municipally owned and operated buildings.)

5. LEISURE SERVICES

The City of North York shall ensure that individuals and groups have the opportunity to choose participation in diversified leisure experiences which are co-ordinated to allow maximum utilization of this City's resources, and to enable equal opportunity in participation.

Leisure services shall enhance the capacity or ability of individuals and groups to choose personally meaningful experiences. Individuals and groups need to know the opportunities that exist and have the means to take advantage of these opportunities.

6. SOCIAL CONTENT OF LAND USE

(a) The City of North York shall ensure there is a procedure for the input of social development data into the process of land use planning and development.

(b) The City of North York shall permit and facilitate the development of physical forms and designs which reflect the changing and varied needs, values, and composition of the community.

B. RECOMMENDATIONS

- 1.0 That Council establish a Standing Committee to serve as a Human Services Committee with responsibility for developing and monitoring social policies for North York.
- 2.0 That Council establish an Advisory Committee to its Human Services Committee with participation from the Community and from human service organizations in North York.
- 3.0 That the Planning Department, in co-operation with the North York Inter-Agency Council, develop specific strategies for

APPENDIX III: NORTH YORK SPECIAL COMMITTEE RECOMMENDATIONS

data collection and sharing, including facilitating the most efficient utilization of Metro Planning Department's social data.

- 4.0 That the Library (Board) continue and expand its Urban Resource Collection on social planning reports in North York and request that agencies and organizations in North York make copies of reports, etc., available to the Library.
- 5.0 That the North York Parks and Recreation Committee establish a Task Force with participation from a range of agencies and organizations to prepare recommendations on co-operative strategies to promote the development of local leadership and resources.
- 6.0 That the City of North York become actively involved in a Human Services Task Force for Metropolitan Toronto.

3.1 SENIOR CITIZENS

- 3.1.1 The Borough and Borough representatives on the Boards of Directors of the Etobicoke General and Queensway General Hospitals continue to press the Ministry of Health for more chronic care and psycho-geriatric services in Etobicoke.
- 3.1.2 It is suggested that a comprehensive booklet be prepared by the Borough Parks and Recreation Services Department listing all programmes and services for seniors in the Borough. Etobicoke's M.P.'s and M.P.P.'s should be asked to include in their free mailings to constituents a central telephone number through which the booklet may be obtained.
- 3.1.3 Responsibility for the identification of the needs of seniors as they arise and recommendations for response to their needs must be acknowledged. The Borough should investigate how such co-ordination may be established.
- 3.1.4 Consideration should be given to the use of schools and community schools/centres as registrars and co-ordinators of home support programs for seniors and the handicapped. This could include the registration of students and others who are willing to work at minimum wage to do maintenance and support services as well as voluntary and government programs.
- 3.1.5 The Borough should consider strategies for encouraging community groups and the private sector to develop a greater number and wider range of housing alternatives for senior citizens in Etobicoke than presently exists.
- 3.1.6 Etobicoke Council should recommend to the Federal Government changes in the Income Tax Act that would permit volunteers to claim a tax credit for transportation costs and other appropriate expenses associated with volunteer work.

APPENDIX IV: ETOBICOKE TASK FORCE RECOMMENDATIONS (with original numbering)

3.2 LAND USE, HOUSING, AND TRANSPORTATION

- 3.2.1 If proper indoor and outdoor space is available, and all other licensing criteria are met, day care centres should be considered a permitted use in commercial and/or industrial zones.
- 3.2.2 In many instances school sites are not subject to the Borough's Development Control provisions. Both School Boards should be encouraged to use the technical expertise of the Planning Staff with respect to school site planning.
- 3.2.3 Council should urge the Province, in the strongest possible terms, to allocate funds for the erection of Metropolitan Separate School Board schools in Etobicoke.
- 3.2.4 Council should actively encourage the preservation of retail commercial strip developments in the Borough in recognition of their unique place in the community.
- 3.2.5 The Borough should take some initiative in supporting and facilitating the development of recreation programs for adolescents and young adults by service clubs, churches, landlords, etc. on a purchase of service basis.
- 3.2.6 Private trade schools, like public, should be allowed to locate in industrial zones.
- 3.2.7 The T.T.C. should be encouraged to develop a service whereby transit users can call a phone number and find out when the next bus will be coming at his or her stop.

3.5 KIPLING/ALBION CASE STUDY

- 3.5.1 The Borough should consider requiring a posted notice in apartment buildings that would identify the location of the building in the Borough of Etobicoke and how to contact Borough departments.
- 3.5.2 The Borough should actively consider the development of a community facility

on available park lands on the east side of Kipling, north of Albion Road. If necessary, a relocatable school could be used for this purpose.

such an index; to co-ordinate and identify information needs in the Borough; and to make recommendations to appropriate bodies on how to meet such needs.

4.2 DATA BASE FOR PLANNING

4.2.1 The Borough, in co-operation with the Library Board, should explore the possibility of maintaining an index of available data and reports collected by civic departments and agencies; serving as a repository for any data and reports on Etobicoke; producing a regularly, up-dated index of data sources; and distributing such a report to the community. Such an index should detail the information available, its location, contact persons, and the degree of accessibility.

4.2.2 Within the Borough there should be a co-ordinator of research and information to facilitate the maintenance of

4.2.3 The Etobicoke Social Planning Council should be requested to continue its "Report on Social Needs in Etobicoke" on an annual basis and to submit each report to Borough Council.

4.2.4 Metro Toronto Council should be encouraged to revise its Metro-wide information collection and dissemination system to facilitate Borough-based human service planning.

4.3 AVAILABILITY OF INFORMATION TO THE COMMUNITY ABOUT SERVICES AND PROGRAMS

4.3.1 The media, ESPC, information centres should be encouraged to continue their efforts to publicize existing and effective sources of information.

4.3.2 Public and private agencies should be

encouraged to develop strategies and capabilities for providing information in as many languages as are appropriate. For example, within the Civic Centre, there should be developed a list of staff who can speak languages other than English and who could be called upon to help explain and interpret Borough services, as required.

- 4.3.3 The demands on the Borough switchboard for information about services provided by other agencies within the Borough should be studied to determine whether there is a more effective way of handling such calls. The E.S.P.C. Information Co-ordinating Committee should be requested to examine the need for an information centre in Central Etobicoke.

4.4 CO-ORDINATION OF PROGRAMS AND SERVICES

- 4.4.1 Front line workers play an important role in the early identification of

trends and issues. The role of agency and departmental staff in initiating co-ordination efforts for both individuals and programs should be recognized and encouraged.

- 4.4.2 The Task Force recommends that a Human Services Advisory Committee be created. This Committee would be appointed by Council and include representatives of the voluntary and public sectors. Its mandate could be:
- a) to provide an overall review of existing programs and services;
 - b) to review the adequacy of funding patterns by other levels of government and other institutions to Etobicoke and make appropriate recommendations;
 - c) to report on the state of social issues in Etobicoke; and
 - d) to make policy recommendations to a committee of Council and other appropriate bodies.
- 4.4.3 With or without a Borough-based Human

Services Advisory Committee, the role of existing co-ordinating bodies in the voluntary sector should be strengthened.

4.5 COMMUNITY DEVELOPMENT AND ORGANIZATION

- 4.5.1 Council should request Metro, Provincial and Federal governments to develop more supportive funding approaches to community development work giving recognition to the long-term nature of the work and its applicability to a variety of issues rather than single issues or program areas.
- 4.5.2 The allocation of community development workers and funds within the Borough needs co-ordination. The Human Services Advisory Committee should be assigned this responsibility.

4.6 SOCIAL ASPECTS OF PHYSICAL PLANNING

- 4.6.1 Where appropriate community facilities do not exist in proximity to high density developments, the Borough should provide or facilitate programs in private recreation space.
- 4.6.2 During the processing of development applications, the Borough should undertake a more intensive review of anticipated social and recreational needs. The Borough should endeavour to retain enough flexibility so that appropriate changes can be made as the development proceeds to reflect changing conditions.
- 4.6.3 The Borough's review of the District Plans should include the development of social objectives in the process in such a way as to meet the requirements of the Ministry of Housing and the requirements of proper planning in Etobicoke.

4.6.4 To aid the process of social and recreational planning, the Borough should request that the Ontario Housing Corporation inform the municipality when O.H.C. enters into rent subsidy agreements for more than 10% of the units within an apartment building.

DETAILS OF ESTIMATED ALLOCATED EXPENDITURES
BY DISTRICT HEALTH COUNCIL FOR
FISCAL YEAR APRIL 1, 1977-MARCH 31, 1978

Metropolitan Toronto
(Includes all boroughs and cities)

Clinical, Applied, Operational and Other Health Research	\$ 1,716,614
Payments made by Care Provided by Physicians and Practitioners under the Ontario Health Insurance Plan	314,149,039

1. In these years the Province of Ontario took over the direct financial responsibility for certain functions in the Social Services Department and the Federal Unemployment Insurance program was liberalized. Both these actions reduced Social Services expenditure demands on Metropolitan Toronto.
2. The remaining reserves from the "Working Fund Reserve" were used to reduce the net expenditures to this level. Before this adjustment, the net expenditures were at a 12% level.
3. Declining use of "Capital out of current" and fare increase both contribute to this decrease.
4. The percentage increases for Social Services, Works and Roads and Traffic include the increases for salaries and wages.
5. Does not include increase for Police Pension Plan and assumes a 7 percent salary increase included in the Commission's estimates.
